

1. List three things about the page design that you find successful and why.
 1. The simplified UI, makes it a lot easier to used and understand what your looking at.
 2. The various sections around the main page, helps break up all the content
 3. The links, there is a link to pretty much everything on the main page
2. List three things, from an accessibility standpoint, that you find unsuccessful and why.
 1. The length of the page, just too long makes it harder to find what your looking for
 2. Not a lot of color contrast, also makes it harder to read content sometimes
 3. Most of the dropdown tabs are too long, again makes it harder to digest content
3. Please also provide the URL of the website in your reflection.
 1. <https://www.baseball-reference.com/>
